

# How to Use the Dewey Decimal System

---

The Dewey Decimal System coordinates materials on the same subject and on related subjects to make items easier to find on the library shelves. This system organizes information into 10 broad categories. Each major category is divided into 9 sub-categories. Each sub-category is further divided into 9 specialized topics that can be broken down even further by adding decimals. Each division becomes more specific.

The major Dewey Decimal divisions are:

- 100 Philosophy and Psychology
- 200 Religion
- 300 Social Sciences
- 400 Language
- 500 Science
- 600 Technology
- 700 Arts and Recreation
- 800 Literature
- 900 History and Geography
