Once you have finalized the inventory, your last step will be to more thoroughly investigate and search for lost items or delete them from your catalog. To view/print your list of lost items:

1. Go to the **Back Office** tab and choose **Inventory** from the left menu.
2. Click on the **View "Lost"**. This will bring up a detailed list of all items that were marked as "Lost."
3. When you find an item, click **Found** to remove it from this list.
4. When you have searched thoroughly for an item without success and you are sure that the item is gone, click **Delete**.
