

How to Request Granite Media Review Books

Granite School District receives from publishers new and pre-release books for students, teachers, and/or librarians to review. Reviews are submitted and published on the district library media website, granitemedia.org. After being reviewed these books can be kept and added to the school library, a classroom library, or given away to a student.

Browsing and Requesting Review Books

1. Visit the following URL:
reviews.edtech.fun.
2. Click on the collection for the type of book you are interested in reviewing (Young Adult Fiction, Picture Books, etc.)
3. Browse through the available books in that collection. (You can toggle between an expanded, square, or list view by clicking the boxes in the upper right corner.)
4. Click Granite Media Review Books in the left sidebar to go back and browse a different collection.
5. Send an email to Josh Whiting (jwhiting@graniteschools.org) in the Educational Technology department listing any titles you are interested in reviewing. (Suggested maximum 6-8 titles per request.)
6. Your requests will be sent to you via district mail.
7. You can also browse the review books in person. Contact Josh Whiting for details.

Submitting Book Reviews

1. Visit granitemedia.org.
2. Hover over Book Reviews in the main menu and choose [Submit a Book Review](#).
3. Fill out the fields of the book review form. It is recommended that you draft and save your actual book review in Word, Google Docs, or a notetaking program and then paste it into the form field so you have a copy in case the form times out.
4. Click **Submit**. Your review may be published on Granite Media on a future day.
